Latest information from KYDPH and Govenors Office:

This phased reopening of health care services is the first step under the Healthy at Work initiative the Governor introduced to help businesses restart operations safely when the time is right. The initiative set out public health benchmarks for reopening Kentucky's economy. These benchmarks closely follow the White House's Guidelines for Reopening America.

Today, under Phase 1, health care practitioners can resume non-urgent/emergent health care services, diagnostic radiology and lab services in:

Hospital outpatient settings;

Health care clinics and medical offices;

Physical therapy settings, chiropractic offices and optometrists;

Dental offices (but with enhanced aerosol protections)

This initial Phase 1 does not apply to long-term care settings, prisons and other industries or other settings, nor does it apply to elective surgeries or procedures.

Phase 2 is set to begin Wednesday, May 6. At that time, outpatient surgeries and other invasive procedures can resume, though hospital and care facilities will have to meet strict guidelines.
